NEW YORK COLLEGE OF TECHNOLOGY

RE: PSC-CUNY Award # 66087-00 44

Dear Professor Satyanarayana:

We are pleased to announce that you are the recipient of a PSC-CUNY 44 Research Award for \$3402.30 to begin July 1, 2013. The award is subject to funding of the PSC-CUNY Research Award Program through the New York State budget, and will be accessible only after funds have been made available to CUNY. This is the only correspondence you will receive about your award; all information is available online.

To access the online application system go to: <<https://www.rfcuny.org/gp/welcome.aspx>>  
User ID : ASHWINBRS  
Password : SAI7RAM

After signing in with your User ID and password, click the VIEW YOUR APPLICATIONS link in the Alerts Box. Next, under the Previous Applications section, locate the application you want to open in the Application Number column and click the respective application number link. Evaluations are not supplied for Traditional A or Traditional B grant applications. To view your budget, click on the BUDGET tab after opening the application.

The award period is for one year. A one-time extension of six months may be requested by email prior to June 30, 2014. After the six-month extension is granted, further extensions will not be allowed under any circumstances.

A final report for this project is due March 1, 2015. Failure to submit the report will negatively affect future PSC-CUNY funding.

Information regarding award expenditures is available on our website:

<<https://www.rfcuny.org/RFWwebsite/research/content.aspx?catID=3020>>

<<https://www.rfcuny.org/RFWwebsite/research/content.aspx?catID=3060>>

If your project includes the use of Human and/or Animal subjects, it cannot begin until it has received the required approval (IRB and/or IACUC) and it can be carried out only during the time that the approval lasts. Principal Investigators must renew their approval(s) to continue working on the project. In addition, the program will accept only project expenditures incurred when the project's IRB and/or IACUC approval period and budget period overlap. For additional information regarding IRB and/or IACUC, please contact the IRB administrator or IACUC administrator at your college. No expenditures will be allowed until the Human and/or Animal subject approval is obtained and a copy is on file at the Research Foundation, where required.

For all inquiries regarding your award, please contact Marissa Marino at The Research Foundation of CUNY via email [PSC\\_CUNY@rfcuny.org](mailto:PSC_CUNY@rfcuny.org) or by telephone [\(212\) 417-8464](tel:(212)417-8464).

We offer our congratulations and best wishes for the success of your research project.

Sincerely,

University Committee on Research Awards
